

THE WIN-WIN SOLUTION FOR EVERYONE

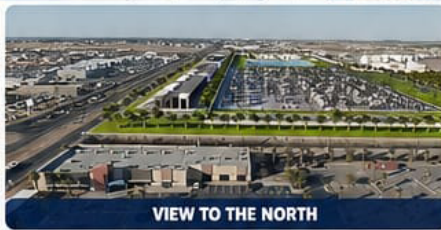

- ✓ A BETTER SITE. ✓ A PUBLIC BENEFIT. ✓ SHARED TAX REVENUE.
FOR IMPERIAL COUNTY.

COOPERATION BEATS LITIGATION

LET'S DELIVER REAL WINS FOR RESIDENTS,
THE CITY, THE COUNTY, AND IMPERIAL
COUNTY'S FUTURE!

VIEW TO THE EAST

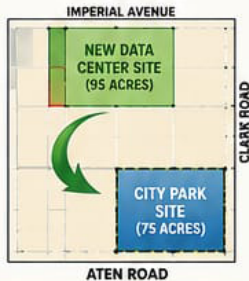

VIEW TO THE NORTH

VIEW TO THE SOUTH

1 SMART LAND SWAP

The data center relocates to the prior 95-acre site at Imperial Avenue and Clark Road. Over one-half mile from residences, and surrounded by industrial. Zero Impact on neighbors. The City annexes the existing 75-acre site at Aten and Clark Road, giving it control over the land.

2 \$7 MILLION COMMUNITY GIFT

Once the building permit is approved on the new site, we deed the entire 75 acres FREE to the City, it can become a beautiful park, soccer fields, playgrounds, or whatever public benefit the City chooses!

3 FAIR TAX SHARING

The County and City enter into a tax-sharing agreement. The County receives 80% and the City 20% of the millions of dollars in tax revenue generated by the data center site.

4 ZERO-IMPACT WATER

The data center has pursued three zero-impact solutions for only 880 acre-feet of water, while IID transfers approximately 20% of its total supply outside the Valley. It is unreasonable for businesses outside the Valley to grow using Imperial County resources while local projects that create jobs and tax revenue face endless roadblocks.

5 ENERGY FOR OUR FUTURE

The same is true for electricity, IID transfers 61% of its electricity outside the Valley, helping fuel growth in Riverside while Imperial County ratepayers face rising costs. There is enough energy to serve a data center inside the Valley which has agreed to power non-firm.

THIS COMPROMISE DELIVERS FOR EVERYONE

Relocates the project to a more appropriate industrial area, gives the City control over the residential-adjacent property, creates a major public benefit for residents, and preserves substantial tax revenue for both the County and the City.
