

WIN-WIN SOLUTION

FOR IMPERIAL COUNTY

A better site • A public benefit • Shared tax revenue • Jobs and growth. Real wins for residents, the City, the County, and Imperial County's future.

Aten Road

The relocated, fully landscaped site — set back behind a buffer, over half a mile from any homes.

SMART LAND SWAP

The data center relocates to the **95-acre industrial site** at Imperial Ave & Clark Rd — over **½ mile from homes** and surrounded by industrial uses, for **zero direct impact** on neighbors. In exchange, the City annexes the 75-acre Aten & Clark Rd site, gaining control of the land nearest residences.

\$7 MILLION COMMUNITY GIFT

Once the building permit is approved on the new site, the full **75 acres is deeded FREE to the City** — to become a park, soccer fields, playgrounds, or any public benefit the City chooses. A **\$7 million gift** to the community.

FAIR TAX SHARING

The County and City enter a tax-sharing agreement on the millions in tax revenue the data center will generate: the **County receives 80%** and the **City receives 20%**.

RESPONSIBLE WATER & POWER

The project pursued three zero-impact solutions for just **880 acre-feet of water** — while IID sends **~600,000 acre-feet** (about 20% of supply) out of the Valley each year, and **exports 61% of its electricity**, fueling Riverside's growth as local ratepayers face rising costs. There is ample capacity to serve a data center here, and it has agreed to non-firm power.

THE WIN-WIN DELIVERS FOR EVERYONE

- ✓ Homes & neighborhoods fully protected
- ✓ County & City both share the tax dollars
- ✓ City gains control + a \$7M park gift
- ✓ The largest economic opportunity in county history moves forward

SUPPORT THE WIN-WIN SOLUTION

Choose cooperation over conflict. Let's unlock progress, parks, and prosperity together.

Imperial County is strongest when we work together.

Project Renderings

Visualizations of the proposed site and the surrounding Imperial Avenue / Aten Road area.

View to the South — landscaped facility, retention pond, and buffer along Aten Road.

View to the North — existing substation and infrastructure adjoining the site.

View to the East — commercial / retail frontage along Imperial Avenue.
